BENEFITS OF ADVERTISING .- Oge of the most successful business men of England, who has risen from a small retail trade to extensive bus-Inesa connections; who has become a man of large wealth; the proprietor of an extensive domain, and whose experiments and success in agricultural improvements, and in developing the capacity of the soil under intelligent oulcure, has made his name known throughout the United Kingdom and extensively known in the United States-Alderman MECHI, of London, has written the following sensible words on the virtues and advantages of advertising :

"Allow me to say a few words on the subject of advertising, because I think there is a faise delicacy among some people on this matter. In my opinion, advertising is a legitimate means of making known the wants and wishes of both buyers and cellers, whether they be for an estate worth halt a million of money, or for a pair of "Mechl's best razors." It is merely making an extension of your shop front in the newspapers; whether the article be seen there or in the window, in both cases its qualities remain to be tested. Is never can answer to advertise a bad article By advertising a good one you exetted your connection, which might otherwise be limited by the number and class of people who happened to pass your door, and their connections. For my own part, my spirit likes a wide range; and I remember once receiving an order through the Hadar Bar Carneau from nor Me. the Hedson Bay Company, from poor Mr. Simp-son, in his Polar expedition, while almost at the same time I was supplying a missionary from the Sandwich Islands.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitlated, sveak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The acrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy labits, the depressing vices, and, above all, by the venereal infection. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enuprive and Skin Diseasts, St. Anthony's Fine, Rose, or Envirences, Pimples, Postules, Blotches, Blains and Boils, Tumons, Tetter and Salt Rheem, Scald Head, Ringworm, RHEI MATISM, SYPHILITIC and MERCURIAL DIS-LASTS, DEDPSY, DYSPERSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITLA-The on Larene Broom. We are enabled here to offer the community a emedy which, while it cures the above complaints the detainty, is still perfectly harmless in any namity. A great variety of discreters arise from its irritation, among which are Neuralgia, Theumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Husterway, Pain in the Bowels, Calle, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent tips, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike.
